Overview

I'm a highly motivated Full Stack Software Engineer with a strong passion for Backend development. Over the past year, I've been able to hone my skills at both Foothill Technology Solutions and Equiptal, where I've been immersed in diverse software projects. My main depth lies in DevOps and Backend development.

Professional Experience

Software Engineer Intern

July. 2022 - Oct.2022

Foothill Technology Solutions

- Learned Fundamentals for Backend Development and the .Net Core 6 Tech Stack
- Knowledge in .Net, C# and a multitude of other BE tools.
- Knowledge in software engineering design patterns and best-practices.

Software Engineer

Equiptal

Oct. 2022 - Present

- I was in charge of multiple deployments for the project, using Ansible, Docker, and Jenkins.
- I have developed multiple features in the BE and FE such as our charting features, email services, time series data processors(using TimeScaleDb), server side rendering vertical slices, caching using Redis and much much more.
- I have contributed or lead multiple infrastructural changes and tasks in our project such as changing servers, orchestration(Docker Swarm), creating Docker Backup Sidecars for our Databases, and setting up multiple tools using docker for our infrastructure.

Technical Skills Overview

Programming Languages:

Strong in: Java, Docker, Ansible, Jenkins, Nginx, Proxmox, HTMX, Pebble, HTML, CSS.

Familiar with: C#

Frameworks:

Familiar with: SpringBoot, .Net Core, Vue

Databases: MariaDB, PostgreSQL. Familiar with: MongoDB.

Other Tools I've Worked With: RabbitMQ, Redis

Education

Birzeit University

Aug. 2019 - Jul. 2023

- Bachelors degree in Computer Science.

Personal-Work Profile

- Born in NYC
- First Native Language is English, Second Language Arabic
- Very confident of my skill-set, but acknowledging there is always more to learn.
- Able to quickly learn from the mistakes of oneself and those of others, and immediately reflect on the situation at hand.
